Muni He

Quick Quotes

Q. Who are with Muni He after your final round here at Walmart. A good week for you overall. What was the key all week for you staying patient out there and ending up with a T10 result?

MUNI HE: Yeah, I'm happy. I think I wasn't really expecting anything out of this week because I've been going through kind of a stuff stretch.

But I know deep down any game is still there and I was just trying to focus on that, not so much the results. I'm really happy that I stayed patient and kept with it.

Q. It's a big deal to get some CME points for you. How happy are you, with the struggles you just mentioned?

MUNI HE: Right. I mean, obviously I'm happy, but anything from this point on is a bonus. I think I haven't been performing as well this year, so kind of already came to the terms of possibly switching it up a bit next year.

So I think that's helped to take some of the pressure off this week, which clearly has been working.

Q. Going into the next few weeks what have you learned that you hope to carry into the next couple weeks, last few events of the year?

MUNI HE: I think I stayed really focused and just within -- on to my own game this week, so just keep doing the same: Staying patient and focusing on myself and no external noises, yeah.
