## Lindy Duncan

### Quick Quotes

**Q. All right, here with Lindy Duncan. Nice way to take advantage of the moving day. What was the game plan going into this third day?**

LINDY DUNCAN: Try to make a lot of birdies and not make any bogeys. Yeah, just try to keep building on some good momentum. Hit my driver really well today, so set myself up for some good opportunities. Bunch of putts fell for me on the front nine and that was just great momentum.

**Q. Just in general, what's been the game plan going into a week like this in Hawai'i with only a few events left in the 2024 schedule?**

LINDY DUNCAN: Just try to keep getting better. My game feels like it's been really trending and improving in lots of areas, seeing some good rounds. That was kind of the goal. Not a lot of expectations exactly, but just, yeah, just really focus on each part of my game.

Made a couple changes coming in here with my alignment and ball position and just some really simple stuff. Felt like that's really helped me.

**Q. Couple changes, but not too much I want to say, correct?**

LINDY DUNCAN: Yeah, I started making the changes basically in Cincinnati and it was pretty drastic at that time. It feels a lot better now, but it's still something I have to focus on every day.

**Q. What does it mean to take advantage of maybe some calmer conditions than some people will have late this afternoon?**

LINDY DUNCAN: Yeah, it really just picked up just right now. It was pretty calm. We had some squalls come through on the front nine so we didn't have an umbrella and we were soaked. You get dry out here pretty fast when the sun comes out.

**LOTTE**  
CHAMPIONSHIP  
PRESENTED BY *Hoakalei*

Yeah, now it's really blowing so feels really good to get a good third round in.

**Q. How do you not let the looming Race to the CME Globe over you when you're in paradise?**

LINDY DUNCAN: Well, it's a great place to be and enjoy, and I'm staying with an amazing host family this week. We been having a lot of fun off the course and that helps a lot.

I've been in this position before and I really stressed out about it before and didn't really help, so trying to take a different approach.

I just have a belief that my game is really trending and I'm really liking the way that I'm coming into form.
