Quick Quotes

Q. 2-under round today. Talk about what you saw out there. Not a ton of super low scores it seems like today?

MINJEE LEE: Yeah, the wind was a little trickier today. I don't think we played or practiced in higher wind as strong as it was at times. A little swirly, like 4, all around there. So that was a little bit tricky.

Other than that, I mean, the greens are always in really great condition, and the course was in great condition despite maybe some of the rain that they had. I think I scrambled really well today. Made a bunch of birdies and a bunch of bogeys, as well. Hopefully I can get a little more consistent scoring come the next few days.

Q. Talk about being back in Singapore and what you enjoy most about being here.

MINJEE LEE: I just love the food, the culture, just where we are at the hotel, there's malls everywhere. Isn't that a girl's dream, really?

It's a great stop on our tour and I always enjoy playing. I haven't missed one in a really long time. We get really great support, as well. It's always nice to come to this event.

Q. You also made an appearance in the last season of Full Swing with your brother. Talk about seeing him and his episode and what that was like.

MINJEE LEE: Yeah, I haven't seen, like, all of it fully yet. I watched about three quarters. I thought it was nice. It was just a little more insight into sort of his social media side and obviously him off the golf course, as well. It's nice that the fans and the people who are outside of golf can kind of relate to what he's like usually and sort of what -- I don't think I was featured as much, but I got, what do you call it -- I was pitching in here and there. It was nice and I was portrayed exactly the way I am.

Q. Do you think he was, too?

MINJEE LEE: Yeah, he was, but I think if people thought

I was like something else, I'm not. That's exactly what I am like. No surprises there. I think it was nice. It was just a nice episode and I think I talk a little bit more how great it is to see him living out his dream and that's great.
