Ryann O'Toole

Quick Quotes

Q. All right, here with Ryann O'Toole after your round. I know it wasn't the result you wanted, but still happy with your round and your result today?

RYANN O'TOOLE: You know, for the most part I'm happy with the tournament. Going into it if someone said, hey, you would be top, whatever I ended up finishing, I would take it.

The back nine really pissed me off, so I think I got to swallow that for a little bit. I had two three-putts on the back side, which is not like me. Just felt like I gave shots up.

It is what it is. You live and learn and move on to the next week.

Q. Can you talk us through the last hole? Really, really close eagle putt. Were the nerves getting to you or can you just take us through your shots there?

RYANN O'TOOLE: To be honest, I don't even feel like I was nervous. Even over the three-putt on 17; I wasn't nervous over that putt. It just broke way more than I actually read it to.

And then that hole I had like that funky downhill kind of coming off the back side of that slope. It was like, how much is it going to take of that, and is it going to pull back left at the end. So it was one of those like, pick a line and see if you get it right.

Shot in. I knew I had to do something, knew I had to give myself an opportunity to make eagle, so at least I was proud of giving myself that.

Just wish it would've gone in the hole.
