## Kristen Gillman

Quick Quotes

**Q. So obviously not great conditions and the course has been through quite a lot with the hurricane and the tropical storms, everything in the past two months. How do you think the course played considering the circumstances?**

KRISTEN GILLMAN: Yeah, I think the course, considering all the weather they got over the last month or two, it was in great shape. I know that they worked really hard to kind of get it back to where we can play, and so I think the course is in great shape and it was fun to play.

**Q. Then obviously with iffy weather, especially the rain today, it's been cold and windy throughout the week, how do you stay positive out on the course with those conditions?**

KRISTEN GILLMAN: Yeah, I knew coming into today that it'd definitely be a grind, and I just kind of kept telling myself, it's okay if you make bogeys. Mistakes are going to happen with how windy it is and this rain. So I just kind of told myself just to be patient and just fight out there for every shot.
