

JTBC Classic presented by Barbasol

Sunday, March 27, 2022

Carlsbad, California, USA

Aviara Golf Club

Gemma Dryburgh

Quick Quotes

Q. Pretty solid week out here at Aviara Golf Club. Probably didn't go as low as you wanted in the final round, but what lessons have you learned this week?

GEMMA DRYBURGH: Yeah, feel like my game is in really good shape. Yeah, couple good rounds, first round and third round, so just got to take the positives from that.

Yeah, I felt like I played well. Just like you said, today didn't go quite as low as I wanted. Yeah, lots of positives.

Q. What are some of those positives?

GEMMA DRYBURGH: I think just hitting it well; hitting it a bit longer as well. Playing the course a lot different to how I used to play it. I think three years ago was last time I was here.

So nice to see that distance kind of pay off. Yeah, feel like I'm putting well as well, so just lots of good things.

Q. How did you go about bouncing back from the second round 76?

GEMMA DRYBURGH: Yeah, it was disappointing obviously doing that in the second round, but, yeah, just kind of -- I knew I was playing well, so I just had that 5-hole blip in the middle of the round in the second round.

I just kind of took confidence from that first round and just went for it, so it was good.

Q. Where will we see you next?

GEMMA DRYBURGH: Guessing I haven't qualified for next week, so probably Hawaii.

Q. Okay. What are you going to carry with you from this week into the rest of the season?

GEMMA DRYBURGH: Lots of good stuff, especially after that first round, kind of posting a good number in the first

round, being up the leaderboard.

Hopefully I can just continue that momentum.

Q. Playing well on such a tricky golf course, how much confidence does that give you?

GEMMA DRYBURGH: Yeah, it's huge. It's tricky golf course. It can really bite you in the bum if you're not hitting fairways and greens, especially with that long rough.

Yeah, nice to finish under par. I think that's the best I've ever played at this course, so lots of positives.
