Quick Quotes

Q. Today at the Chevron Championship, you had a great round and overall score, what are your thoughts from this championship?

HYO JOO KIM: I think I really did well today, and I did, but because we had a playoff, there's some disappointment. But in the current condition I'm in, I really did my best and I think I played well.

Q. Today in the 4th round, there was a lot of differences compared to yesterday or the day before with the weather and rain and temperature.

HYO JOO KIM: Raining is normal and that's okay but it's very humid here so I think the players are very exhausted right now. This week, I had a lot of issues with skin allergies, so that was the hardest part. But, it ended well with a good finish. So, it was a little disappointing but satisfactory performance.

Q. In your next tournament what is your mindset like and are you taking anything away from Chevron?

HYO JOO KIM: I just want to keep having a good pulse on things and since there's a lot of tournaments left and the season is long, I want to keep playing well until the end and be on top.
