Eli Carter

Boston College Eagles

Q. Eli, brand new to the program, brand new to this media event. What have been your impressions as an Eagle thus far?

ELI CARTER: Just how excited the fan base is of the team, and just the energy around the building, with the new guys, the freshmen. Dennis, that's been here, and the whole coaching staff.

Q. What is it about the energy that draws excitement to you and in you?

ELI CARTER: Just makes you want to work hard and give back, like give the fans what they want. Come out each and every day just ready to go and try to turn this thing around.

Q. Eli, as coach is in the process of building and rebuilding, you've had a chance to watch Boston College from afar. You've obviously watched a lot of Dennis and his play. What is it about the BC family right now, what you've seen on the floor that you really, really like?

ELI CARTER: They're just eager, eager to win, to get back to that high level and compete with the best teams in the country. Dennis, obviously he worked very hard to get back on the floor and contribute to the team, and I just want to be there to help.

Q. In a year from now, when you look back, what do you hope to be saying?

ELI CARTER: That I gave it my all, that my team gave me their all, and that we left it all out there on the floor.
