

The Presidents Cup

Sunday, September 29, 2024

Montreal, Quebec, Canada

Royal Montreal Golf Club

Wyndham Clark

Quick Quotes

Q. Wyndham, what did you enjoy the most about playing for Captain Furyk this week?

WYNDHAM CLARK: There's so many things. Gosh, he's very intense. He obviously played other sports. He was great inside the locker room for us and never wavered whether we played good or bad. He just stayed the same.

I felt like he stuck with his game plan, so there's a lot of things I love playing for him. This whole team was amazing to play for.

Q. You guys spend most weeks trying to beat each other's brains in. What's the mindset switch when you collaborate together to try to win a Presidents Cup?

WYNDHAM CLARK: Well, we take all the energy we have to try to beat each other into now let's put it together and channel it and try to beat someone else, which is really fun. It's really refreshing for golf, too. It's so individual, and then now you're turning for each other, you're rooting for each other, you're helping each other. It's really a lot of fun.

Q. What a celebration. Your first Presidents Cup, and all I'm hearing is how wonderful this room was. Give us an idea of what it was like to be with these guys, be in the room, be part of this.

WYNDHAM CLARK: Yeah, we are a very close team. Contrary to what people thought last year at the Ryder Cup, we were in my opinion closer than the Europeans. The media tries to divide us apart, and this year we were just as close if not closer. We had so much camaraderie and positive energy between us. When things weren't going well, we still were all picking each other up. It was an amazing team room. So many laughs, so many fond memories.

Q. If you had to pick one thing, just one thing that's a thread throughout everybody in this room, is it the attitude, or is there something else that these guys share, that you share with these guys, that puts that

number on the board behind your shoulder?

WYNDHAM CLARK: I think we all just have a little bit of dog in us is really what I'd say. I feel like we're the best players in the world for a reason, and I think you get us all together, and I just think we have a little extra something that maybe other people don't have. I think it's the little dog in us.
