Q. Not your best stuff but enough to keep you in this thing. You must be relatively pleased where you're positioned at this point.

MITO PEREIRA: Yeah, I didn't play my best and I shot 4-under, so that's a good sign. Just hoping tomorrow to get those shots to the green a little bit closer to get some really opportunities for birdie. Today I was putting a little too long for making some putts. But happy how I fought, and let's have a good day tomorrow.

Q. What's the mindset? Obviously I think it's three behind a couple of pretty decent players who have good records. You're just going to have to try to chase them down, fire at pins?

MITO PEREIRA: I mean, I don't know what would be the best strategy. I think always play what you have in mind is the idea, not try to be too much off because then maybe the double bogeys and bogeys start into play.

Really just play like I've been playing. Just a couple of putts are going to drop, and it will be a good round.
