THE MODERATOR: Can you describe your feelings about your 100th win here in Cincinnati, how you feel right now?

CASPER RUUD: I think it's a very fun milestone to achieve. It's not something I was aware of too much until after the game today. It's not like I'm counting all the wins at all times, but it's very, very nice achievement I think.

I'm still young. Hopefully if I can win 100 more would be nice, obviously, but that's part of the sport. There is no guarantee. But I will do everything I can, of course.

The next years will be exciting to see what I can do. Hopefully I can also get to 200. But my 100 first wins have been all very nice, and I have good memories from probably all of them. I can't remember all of them right now, but if I go through them I will have good memories from all of them.
