THE MODERATOR: Questions, please.

Q. How did you feel about your first match today and how you played?

PABLO CARRENO BUSTA: Well, I think I play good, no? I'm happy with the performance. Probably at the beginning of the match he starts very aggressive and probably he surprise me a little bit.

But after the two first games I think that I dominate the game again and, well, I served good, I returned good. I play aggressive, so I was happy with the victory and with my game.

Q. I know there haven't been that many tournaments this year, but a lot of players have said that it's been quite hectic the last few weeks and a bit mentally exhausting. For you, how are you feeling both mentally and physically at this point in the season?

PABLO CARRENO BUSTA: Yeah, probably is the most difficult season in my career, no? We was five months stopped, and then we have to start at 100%.

I play very well on the Grand Slams and US Open and Roland Garros, and then it's true that now at the end of the year I feel a little bit tired physically but also mentally, you know.

It's not easy not to play and to play these tournaments and to be at the room all the time, no? I know that we are lucky that we can continue playing, but also is not easy, no, to be 100% every weeks in this situation.
