Q. Can you just sort of talk about a little bit on such a big stage such a great atmosphere, just how it felt out there and how it felt to win as well?

SEBASTIAN BAEZ: First, thank you, well, I feel so good because it was a great match. I feel the ground, everything, I feel comfortable because the other player, Lorenzo, is from here, have the crowd for that side, but I think it was correct, the people. And too I connected with my team, so I tried to thinking about the play the game and my team.

Q. Some of the innovations of course were pretty interesting. Did you plan like ahead of time for how you would do the warmup, because the four matches today, nobody hit a volley at all, people only hit ground strokes and serves, so I was just curious what you thought.

SEBASTIAN BAEZ: It's weird. It's really weird because we have just one minute and it's like 30 seconds from play and 30 seconds for serve, so it's amazing, it's new. But I think it's good because when you are inside of the court you have to be concentrate, so when you are inside, it's just start the match. So I think it's new, but it's good too.

Q. Does that sort of, like do you think before your next match you're going to maybe change how you approach it a little bit, now that you know what it's like?

SEBASTIAN BAEZ: I don't think about the next match. I have some things to do, I have to recovery, I have to stretch, I have to do a lot of things, so tomorrow when I wake up and warm up, after that I talk with my coach and try to think about the game.
