**Q. Overall a great week for you, you never won a hardcourt match at Tour level before, so how do you put that in perspective? Are you pretty happy with the week in Milan overall?**

SEBASTIAN BAEZ: Thank you. Yes, I am happy for this week because it's an honor for me and for my country too because for to be in the semifinals for me and for my country was so special, so happy for that side.

And for the other side, for a moment I play very well, for some moments I can do the best things, but I have a lot of experience from this week, so I'm happy for that and I'm focused for the next week because I have another tournament.
