THE MODERATOR: Can you tell us about the match today.

MIKHAIL KUKUSHKIN: The match was tough. He played really well today, and I start quite slow the first set, and then with every game until the end was playing better and better. But I should use my chances in the second set, but I lost three times my serve, and I should be better playing on my serve.

I was playing better in the end, but unfortunately was not enough to win. My opponent was playing really inspiring, and he deserves to win today.

THE MODERATOR: What do you need to change for the next match that you think you could improve?

MIKHAIL KUKUSHKIN: Better to use my chances and to be more solid on my serve.
