THE MODERATOR: We'll start with some questions in English first.

Horacio, how was it to go on court after the defeat of 2-Love and still trying to get every point?

HORACIO ZEBALLOS: Like you said, every point counts. Of course, wasn't a really nice feeling. We came here to win every match. What can we do?

They fight. The guys fight until the end. Then we need at least one point today. We came to the court knowing that we need to win, trying to do our best because they were playing good. They were under confidence. We kept fighting even when things went wrong until the end.

We won a really important point for us. We are still alive.

THE MODERATOR: Maximo, you will have two tough doubles opponents with Croatia and Italy. Are you happy with your performance as a preparation for those other matches?

MAXIMO GONZALEZ: Yes. The score I think we play really good today. In the beginning, was like some doubt, and then we play two set. They play really two good match today, both singles and the doubles.

Already we know Horacio will play. We know each other. I think we can win these two doubles coming.

THE MODERATOR: Thank you.
