THE MODERATOR: Questions in English.

Q. You played incredibly well tonight. How do you explain that the victory seemed so easy against Lorenzo?

FRANCISCO CERUNDOLO: Well, it looked easy, but it wasn't easy. I mean, it was a really tough match. At the beginning probably we both were nervous.

After I think 0-2, I started playing better and better and better, building my game. I don't know. After the first set, I played incredible in the second. I think he felt a little bit uncomfortable during the match, and I took those opportunities.

But I think I played a really good match from the beginning to the end. I knew it was a really important point for us, and I think I did it pretty well. Hopefully we can win the tie, because we are playing really good.
