Team Spain - 1

THE MODERATOR: We'll start with questions for Jaume.

Q. You went into this match having lost two matches to him before. What changed today?

JAUME MUNAR: I was pretty confident on my tennis. Doesn't matter who I have in front. That's the first and most important thing. Because I've been playing really good in indoors this year, I had a great confident on myself. That's the main.

Then two matches lost against Jiri, but feeling like I could do something else that I didn't do last couple of times. Not much than being there point by point and trying to put my strategy there and serving great as I did today. That was the main thing.

Q. How did you feel walking on for the match, considering that the Czechs had won the first match? Were you feeling nervous or anxious, the pressure?

JAUME MUNAR: No, that was something I've been working since Marbella. I felt that a little bit in Spain that time, but not today.

As I said, pretty focus on my tennis, my goals, my strategy, trying to put that on court today. That was the main thing on my head. Nothing else than that.
