THE MODERATOR: Anabel, what's your general balance of these competitions, especially being so positive starting the day, but then in the end, it confirms it's a very, very tough event.

CAPTAIN GARRIGUES: Well, about today is tough day for us, no? We were talking in the locker room like the tennis is not given to you even 24 hours. We were yesterday win a tie, 3-0 with the chance winning one match to be in the semifinals, and after those hours, you are out of the competition.

Really tough, but the true is that Great Britain today played unbelievable tie. Four players played unbelievable. We were expecting the nerves. We were expecting the pressure in some point, and we didn't see in any moment.

They were playing very, very good from the first to the last point. The only thing we can say is well done, good job, and good luck in the semifinals.
