THE MODERATOR: Questions, please.

Q. Talk us through your match.

STEFANO TRAVAGLIA: Yes, my match today was really strong from the beginning and a totally different match from the first match that I played on Monday. So I have adapted, there was different condition. Monday it was windy and colder than today. Today is sunny and hot, so different player. But I think I feeling good from the beginning and I use a lot of my service to stay on the match, in the match. I think that was the key to win it, because I did not return so good, but I was every time up with the score for my serve, because I was serving really good -- 14 aces, I think -- and a good percent of the first serves.

So I think the key was my serve and my mind because I was every time focused even if I was down on the tiebreak on the second set and on the third. But I'm really happy and I will be focused for tomorrow.
