ROLAND-GARROS

THE MODERATOR: Questions, please.

Q. With the conditions this year being a little different, how do they impact your chances? How confident are you of your game?

KAROLINA PLISKOVA: No, of course the conditions are not the best. It's pretty much same for everybody. It's going to be a little bit heavier than we are used to, especially on clay.

I mean, we know I can play on clay, but maybe little bit different weather than we having now. Anyway, I think the chances are still the same. We still in the beginning of the tournament. I just hope to start well. I had some matches in Rome. I think I played some good tennis. Hopefully I can continue in this.

Q. How is the injury feeling right now?

KAROLINA PLISKOVA: It's much better. I was playing today and yesterday. Slowly it's getting there. I'm lucky I'm going to be playing probably Tuesday, so there's a couple more days to heal. Hopefully we going to be almost 100%. Not there yet, but getting there.
