THE MODERATOR: Can you please share your thoughts about your match today?

SEBASTIAN OFNER: I think it was a very difficult match because he's playing very, how shall I say -- not giving much rhythm with his serve and also with his return, like, going all the time, most of the time full power, and then just chipping.

So for me it was very difficult because I'm a player who needs a little bit of rhythm.

But from the beginning on I think I did a great job with the return and also with my service games. So, all in all, I think it was for the circumstances it was a good match for myself.
