**Q. Important to put some blue on the board to limit, how good does it feel to do just that?**

VIKTOR HOVLAND: That was awesome. Obviously it was looking really good for us early on, and now there's a little too much red going on there. But it was nice to put up the first point for Europe, and hopefully we can get some more coming.

**Q. The majority of the European players have been a little muted and not much celebrating. Is that an instruction from the captain, keep yourself focused and calm?**

VIKTOR HOVLAND: No, not really. I think we are all just trying to take care of our business. You know, every single match feels like a sprint but it's still 18 holes. Just because you make one putt, you don't want to feel like you've won the match because you've made a putt. Maybe that's what guys are doing. They are keeping their heads down and just letting the clubs do the talking. Yeah.
