Q. Tell us about that match today.

BROOKS KOEPKA: Yeah, I played really good. Pleased with the way I played. I would have liked to have made a few more putts, but Ludvig is a good player. Watched him yesterday and today. So he's solid. He's going to be around for a long time.

Q. Reflections on the last three days, ultimately frustrating? There's a lot of red on the board; it's not over just yet. But has it been not a struggle, but it hasn't worked out (indiscernible)?

BROOKS KOEPKA: I mean, there's got to be a winner and there's got to be a loser. So it happens. All you can do is just give it your all and see where it takes you.

Q. Ultimately there has to be a competition. There's two teams in it. Can you just reflect on the strengths of your team but also the team you played against?

BROOKS KOEPKA: Yeah, I thought they played really, really well, especially the first two days. I mean, I haven't seen much of today, but the last few days they've played really well.

It's been impressive. They made the putts when they needed to. I think even Friday afternoon I think 18 was a big, big swing point just for the tournament. And, I don't know, we'll see what happens here with the U.S. in a little bit.
