Danny Willett

DANNY WILLETT: It was disappointing. Felt like we hit better shots than kind of the score that we produced.

Yeah, it's tough, isn't it, when it's that windy. At times you feel like you hit good golf shots and they just drift a little bit more. A week off now and do a little bit of work and see where we're at.

Q. When you talk about work, you try to get your feel back for the game; is that just hard work on the range?

DANNY WILLETT: It's probably playing more. You can always get it to look pretty and do whatever, but it needs to be more functional and hitting certain shots with certain winds, which has been quite fun this week.

Obviously we've had a couple of different wind directions, and this golf course has played really great with them all. It's been fun to do that this week and to be around for the four days.

Yeah, just a little bit more of that, I think.

Q. Back on now for the summer her I presume.

DANNY WILLETT: Yeah, based back in England now. Go back out and play Wyndham and see if we can have a final push there and a good week, and hopefully we can get that into FedExCup Playoff in Memphis.

If not, yeah, a few weeks off and the looking at getting back and playing a few DP World Tour events.
