Tommy Fleetwood

Q. How do you look back on the round?

TOMMY FLEETWOOD: Yeah, I mean, disappointed with -- still had the last six holes, if you like. I felt like walking off the green, I was 5-under for the tournament but felt like I could have been two or three better at that point as well. That was with a couple of mistakes.

Sort of had a really good round going and would have liked to have got more and then just disappointing finish. A couple bad shots, a couple mistakes, and overall sort of left feeling a bit annoyed or dejected or disappointed, whichever way you put it. But it wasn't a bad round, it just wasn't what we needed.

Q. You had some momentum after that first dropped shot; you had the eagle, then got some birdies. It looked like you may be on.

TOMMY FLEETWOOD: Yeah, exactly. You just want to try and -- Saturday, the conditions were nice, and I think there was definitely some scores out there, and you just want to be one of those that puts one of those together. You can't do anything about what the guys that are a long way in front of you do. But at least you feel satisfied if you've done all you can.

You know, it was good. Played a lot of good stuff. Just have to look to tomorrow now and try and have a good finish and see where we're at.
