## Nelly Korda

**Q. Pro-Am done, you've seen the course, is it everything we've heard it's going to be?**

NELLY KORDA: It's definitely very linksy. Probably the most links golf course I've played to this date. You know, it's going to be very important to minimise your mistakes off the tee and see how the wind is but it's have I very, very nice golf course and see what kind of test we have these next few days.

**Q. What are your takeaways of the burn there on 18 and everything?**

NELLY KORDA: Honestly I was actually looking on Instagram, and sometimes when you like look up those geo tags, you can click on it. I was looking through a couple days ago, and seeing the history behind this golf course. Hopefully 18 treats me well.

**Q. Tokyo with the heat and now the conditions here, how are you adapting?**

NELLY KORDA: Honestly it was so hot in Tokyo, and it's going to be chilly, rainy. It's going to be firm. You have to really -- just kind of mentally preparing yourself because you're going to hit bad shots. The wind is just going to take it. Just make sure you're okay with that and that you're going to be in those pot bunkers.
