Jaravee Boonchant

Q. Take me through your round out there, the highlights?

JARAVEE BOONCHANT: I think it would be my irons, my approach shot and also my chipping and bunker. I hit some -- some of the shot, I didn't hit it that well but I was able to make up-and-down and make a par, and that's kind of made me like trust my short game more so I could go more aggressive to the pin.

Q. Is there anything in particular this about this course that maybe suits your game or those iron shots?

JARAVEE BOONCHANT: Nothing in particular, but I guess I was here earlier, so I get to play on Sunday, Monday, Tuesday and just practise on Wednesday, so I was trying to get more familiar with the course and just try to play smart golf. Not be too greedy and just try to put myself in a position that I can have a chance to make birdie.

Q. Just take me through the best birdies out there for you, the best shots maybe that you've had today?

JARAVEE BOONCHANT: I think it would be my -- I think this shot is not for birdie but I was able to make up-and-down on No. 13 from the right bunker, and I think that after the birdie, I hit like a bad driver but I was able to make par on that, and that just kind of like the momentum going.

Q. This is your fourth major of the year. Your last major of the year. What are some goals for this final major for you?

JARAVEE BOONCHANT: I was just trying to focus on every shot because obviously I did not do that well on the first three majors and I think my mind was like caught up in major-wise too much and I didn't play my own game. So this week, I was just trying to just hit a drive, hit a shot and try to make putts, and just try to focus on the -- like in the present more than like the results.
