Minami katsu

Minami Katsu 90

Today, I just focused on my own game, did what I do and felt like I'd be lucky if I could finish in the top ranks.

I had a bogey at the beginning and was in a bad flow on the fourth hole, but then I hit a super par after that and once I realized I still had a good flow,

I was able to get into a pretty good rhythm.

My shots weren't as consistent as yesterday, but I think I played with a really good mindset throughout the round.

I had a lot of close putts today, but I managed to hang in there with par so I knew I'd get the ball in eventually. I'm glad I focused on follow-through shots again today.

I think this position in a major is good. I'm usually in a good position on the final day, but I don't play well, so playing good golf in a major gives me a lot of confidence. I think it will help me get better in the future, so I think it was a really good week.

Was second place your personal best?

Yeah, I'm not entirely satisfied. I was in a position where I could have aimed higher but I played well and Miyu played even better. So I still have a lot to aim for and I want to continue to improve myself."
