Q. How has this last year been after winning the WAAP? Would you have done anything different? Do you think your game is stronger?

MIZUKI HASHIMOTO: Winning this event last year, that got me becoming a member of national team in Japan Golf Association. What I learned in the team, especially how I practice golf, has developed, and I've changed what I do training-wise.

But I kept competing in all events with my spirit, and I experienced every major last year, so I want to use that experience this week and do my best.
