Jiyoo Lim

JIYOO LIM: The approach went really well today. The birdie came out by putting all the balls on the pin flag. Three to four of the eight birdies fell within one metre from the flagpole. The other birdies were all within three to four metres. The putting was also good because the approach was good. I didn't miss a birdie opportunity today.

I'm excited because I was sinking a lot of birdies. The first round was very tiring. I also did the practice round in a hurry.

All I could think was that it was hard throughout the walk. I felt really comfortable today.

Off the round, I only practised for 40 minutes. I checked the shot for 20 minutes and putted about 11 times.

I'm going to eat something delicious and rest well tonight. I felt at ease. That's the best.
