Sophie Han

Q. So maybe not the result you wanted at the end of the day today, but can you talk us through your round and what you think you need to work on going into tomorrow?

SOPHIE HAN: Today I was really tired and physically I couldn't do much. I don't know, I was just really exhausted today. I've been struggling with my irons and I just can't get on the green. But at least I try hard to play and I try hard to stay in all the shots and that's really good. Probably after this round I will go practice for 50 minutes and go have a good rest and prepare for tomorrow.

Q. You still made a couple of birdies though out there. What was working well for you today?

SOPHIE HAN: That two birdies, one was the final hole and one was a par-5. That was a bit funny because I chunked a shot. It just rolled down the hill and it rolled really close to the hole and that was a really lucky shot.

I think the only -- and also the final hole, the last birdie was pretty good. That was really solid.

Q. What happened for you on that hole, what club were you using?

SOPHIE HAN: My third shot I used my pitching wedge and, yeah, that was probably the most solid shot of the day. So, it was really good.
