REAGAN PEBLEY: Yeah, congrats to Baylor. You know, they have had a great Big 12 run thus far. They obviously are very talented team, incredibly competent team right now.

I love our team. I'm proud of our team, proud of our growth. I'm proud of all the choices these women have made over the last eight month so we can play basketball. You know, I don't think -- unless you're living it -- people have any clue how hard it is on these 18 to 22 year olds to make the choices they're making to compete and to play and practice and to be a part of this game. You know, it is something I am humbled by and incredibly grateful for.

You know, as far as the game goes, I thought obviously NaLyssa Smith had a night with her opportunities right at the rim and in transition. I think Tavy for us did a really nice job in her opportunities and one-on-one.

And tough night for Lauren in scoring. But Lauren is more than this one game, and we know that. She knows that. I would ride or die with Lauren Heard any day.

MODERATOR: Any questions? Doesn't look like anyone has any questions.

Okay, thank you Coach.
