**Q. (Indiscernible).**

JAYCE JOHNSON: It definitely helps coming here today when we were doing practice, I knew all the coverages. I knew some of the plays, already knew kind of the cues, some of the play names, what I could do or where I'm going to go. So it definitely helps me be more comfortable in situations.

**Q. How has your game evolved over the last year do you believe?**

JAYCE JOHNSON: This summer I worked a lot on my -- like spreading my game out. I worked a lot on my shot. Hopefully I can implement that in my game. But we'll see what happens in Summer League and everything. I also worked on my agility, my quickness and change of direction and my vertical. Hopefully that can translate and I can show that in Summer League.

**Q. What was it like with Jacob Rubin as head coach today?**

JAYCE JOHNSON: It was great. We all were competing, which I love. I just want to get better. The guys are all out there, pushing themselves, and I could see how this team could go all the way in Summer League.

**Q. You just touched on a lot of things that you focused on working and getting better heading into this season. What does a successful Summer League look like for you from your perspective?**

JAYCE JOHNSON: Mainly for me is just helping my team win Summer League. Successful for me is if everybody wins, I win. Just helping my team, doing whatever I can.

**Q. (Indiscernible).**

JAYCE JOHNSON: I think Lester might have. I looked away for a second, looked back and he was dunking, so I don't know who exactly was on him, I couldn't say, but I think Lester did.
