**Q. What did you learn from this game that will help you go forward in the next game?**

GEORGIOS KOUTSIAS: We score early in the game, and after one goal in set pieces, we got 1-1 in the first half, and then if we go in the first half 1-0, and we need to work on some different back line. For me, we lose many goals in the middle, and if, for example, it goes forward and goes to the goal kicker, everybody behind the ball so we can defend better. And me, we need to learn about this when we play Toluca.
