## Pit Lane Interview

### Kyle Larson

**Q. Kyle, found your way up the inside at the end of the race. Were you thinking those guys might slip up and let you get up there?**

**KYLE LARSON:** I felt like that was my only hope. Yeah, I felt like I made the correct decisions there. I don't know, I'd have to look back at it.

I thought being patient to try and keep them side by side down the back was good. I could have shot to the bottom, but I felt like I would have wrecked everybody there. Yeah, just kind of gave ourselves a shot for them to maybe get into each other and us squeak by.

Good to finish third. I felt like we were going to be lucky to finish top 10. Pit crew did a great job there that last stop. They made good adjustments compared to our first option tire round two.

Yeah, got better, but need to be a lot, lot better to have any shot to win here in the fall when it really matters. Great to get a solid finish in here. It's been kind of a struggle for us here to start the year. Happy about that.

Go to Vegas and try to do good again.
