Pit Lane Interview

Alex Bowman

Q. Alex Bowman ends up leading 33 laps, and you were the leader until seven to go. Was it getting into the wall a little extra that did you in, or was there more to it?

ALEX BOWMAN: I guess I choked that one away. Just burned my stuff up. Saw the 5 coming, so moved around a little bit. Not when he passed me, but the time before that I hit it hard with the right front and ended up just bending something enough that I lost a lot of right front feel and then I pulled it off the wall too far right there and ended up hitting the fence pretty bad.

So I hate that for this Ally 48 group. They deserve better than that. Just a couple of mistakes there. I felt like we were okay all day. That last run was the best we were.

Hats off to Ally and Blake and everybody for supporting this 48 team. Hate it for Mr. Hendrick. Congrats to Kyle. We're going to try get another one this week.
