## Victory Lane Interview

### Kyle Larson

**THE MODERATOR:** Kyle, you had control of the good majority of the race today. Lost control of the race on that one restart there. Was that the difference for you?

**KYLE LARSON:** Yeah, it was. You don't want to give up the lead on a mile and a half. It's hard to get it back. Yeah, Michael just did a good job timing it. I left early the restart before and was going to leave early again then. He just anticipated and left probably right with me or just barely before, and he had Reddick pushing him behind him.

So, yeah, wish I could go back and do that all over again. Yeah, just bummer, but try to learn from it.
