*An Interview with:*

## Carson Hocevar

**Q. Carson, you started second, you finished first. There was a little more in the middle, though. Early on you had to hold on to the 77 car but now you will be racing in the All-Star event tonight.**

**CARSON HOCEVAR:** Yeah, super big for this group, this team. It's great to win, especially being challenged by tires there. I had my hands full. We definitely have to go to work here on our race car because I didn't really like it, but it's a good sign that we didn't like it and we were still pretty quick there.

Hopefully we can take advantage of it. I've seen Kasey Kahne win and Dale and others win from the Open and stuff.

Maybe we can take that advantage of having this notebook and move forward early and be able to take this Indiana Fever and Gainbridge Chevy up front.
