An Interview with:

Chase Elliott

Q. Chase Elliott comes home to finish eighth. You were locked into the next round via your win last weekend. When I talked to the crew chief this morning, he said it was important to keep up the intensity and sense of urgency. Do you feel like you did that today?

CHASE ELLIOTT: I do. We were trying to do something different on the strategy front. Unfortunately, never really went our way. I thought our pace was actually respectable. To get restart, you know, in the mid-20s there behind 20th place on a couple of occasions and get back inside the top 10, I feel like we were decent.

Just, yeah, needed to have something kind of go our way with the way we were running it, but yeah, overall I thought it was a solid day for us and certainly gave it our best effort. Excited to get to Vegas.
