## Pit Lane Interview

Sunday, November 2, 2025

### Chase Briscoe

**Q. You had tire issues, came back to the front. How do you sum up this day?**

**CHASE BRISCOE:** Certainly eventful. We never gave up. That's been the story of my whole career, never giving up. You never know what can change at any point.

Felt like we were good enough. We came from the front to the back two or three different times. Had a really good Bass Pro Shops TRACKER Toyota. Wish we could have been on an even playing field at some point.

Was about to pass William, blew another tire. Just part of it. Obviously thankful for the opportunity. So excited to be at Joe Gibbs Racing, be able to compete for wins and compete for championships. Hate that one of us didn't get it. I thought we were both certainly capable. This wasn't our day.

Go into next year and see if we can do a little bit better.

**Q. Your first Championship 4 experience, all the poles, the wins. How big was this year for you?**

**CHASE BRISCOE:** It was big. Just in the sense of you always think you can do it. You never really know if you can. This year to prove to myself and certainly a lot of other people, too, that I feel like I belong here, right?

So yeah, looking forward to obviously building on that. Really this year I felt like we gave the field half a season head start because we were learning so much throughout the process.

We'll start on an even playing field next year, see if we can be better.

**Q. Can you get back here?**

**CHASE BRISCOE:** Certainly we think we can get back here. James and I were talking, we don't even feel like we're at our full potential yet.

I definitely feel confident we can get back.
