*An Interview with:*

## Tyler Reddick

**Q. Tyler Reddick grabbed the checkered flag for the second week in a row. Taking a look at the right front of his race car. There's no fender there, Tyler. How did you find a way with this beat-up race car to go back-to-back two weeks in a row?**

**TYLER REDDICK:** That's crazy, ain't it? How about that? EchoPark Speedway! I mean, this place over the years, man, you know, it just puts on some amazing racing. Handling matters here, but man, I don't know. I guess determination, always handling.

Thank you, everybody, for coming out. I mean, it's cold. Cheers to everyone here. Y'all motivate us to pull off some crazy stuff like that.

**Q. You restarted in third on the final restart and looked like maybe you were going to be content to push your teammate Bubba Wallace to the win there. He moves to the top side. When it opened up, did you think this car was going to have enough with the damage to keep it up there?**

**TYLER REDDICK:** Man, I really didn't know. We were back there in 30th after we got collected with the 11. It was definitely really loose, and we were able to make a little bit of adjustment on it with the air and whatnot. I don't know, they just kept stacking up in the middle and top lanes, and I just found a way to get back in the top five.

I tried to stay committed to somebody, and I don't know, I didn't really have a choice. I had to find out if it was going to go out in clean air like that.
