An Interview with:

Tyler Reddick

Q. Tyler Reddick gets to celebrate making history in NASCAR, celebrating with the family, celebrating with Michael Jordan and his kids. No one has ever won three races to start a year. You make history here today. What does that mean to you?

TYLER REDDICK: It means the world. Yeah, it's so fitting. We get going at the end there and I'm leading and there's SVG, the guy I've been trying to beat for a while now. Just to be able to out last him there and hold on for the win is just incredible.

Just really proud of this Chumba Casino Toyota Camry, everyone at 23XI. We worked really hard. We did not like getting beat like that at road courses. It's one race, but it was so important, so fitting that we were able to get three in a row and make history.

Q. Bring me through those final laps. You talked about being able to hold off SVG who's one of the best to do it on road courses. What were you telling yourself in that moment?

TYLER REDDICK: Yeah, just trying to remember everything that I knew was going to be important there at the end and just tried to minimize the mistakes. Shane is -- this is what he's so good at. He does not make mistakes. I certainly made a couple and just doing everything I could to just manage the gap and just stay away from him, if you know what I mean. If I let him get close enough, it was going to be probably hard to hold him off.
