Tyler Reddick

Q. Tyler, we heard you during the race over the radio complaining about the car and what you needed to be able to make a run towards the front. Ultimately, what was the difference?

TYLER REDDICK: I don't know if I would say complaining. Just giving feedback on what I'm feeling. We were hoping as it played out there on the restart behind the 9 that we would have a little something left to be able to close the gap and maybe, you know, be close enough to make the pass for the cycle or after.

Unfortunately for us and our Rockstar Energy Camry it didn't play out that way today. We were all very close with the 9 and the 11. Yeah, just kind of spread out a little bit there. Was hoping I was going to have a little bit of speed late in the run to close and didn't really happen for us.

All in all it was, like, a solid day. It was nice to go for it there on the two tires. Just had a couple of passes that took a little longer than they needed to, and that was the difference between -- I don't know if we would have got back to the lead, but I think we played it perfectly, we could have got second. All in all, it was a good day.
