Q. Really well-played today. Can you summarise your round?

JASMINE SUWANNAPURA: Well, I think starting the front nine, I got the first couple holes, we got a little gusty wind, but there's a chance of birdie and then a lot of bogey today. I mean every day here may differently. Every hole on each day play differently because of the wind. But other than that, it's been fun to try to figure it out, the golf course, because every day is different.

But yeah, I think I miss a couple birdies on par 5 today which is a little bit not happy about that but you know, trying my best every day and then having a couple birdie coming in is not a bad thing.

Q. A lot of people have said this golf course, you have to be creative. Would you agree with that statement?

JASMINE SUWANNAPURA: Yeah, each hole every day, we play a different club. Today driver. Tomorrow, 3-wood; today, 5-wood. You have to be very creative on those shots.

The couple holes on 17, the pin tuck way back left, and even though I hit a perfect 5-wood in the fairway, I hit it just short and it rolled back like 35 yards by the drain. So that shot is really hard, even though if you chipped it, and you miss it a little short, it's going to come back all the way there. I chip it pretty good but then the up-and-down just lip out. So that's a little bogey here and there.

Q. What do you think is going to be important to focus ongoing into tomorrow?

JASMINE SUWANNAPURA: Tomorrow, just play with the golf course and hopefully I've got more chance to make birdie tomorrow, and yeah, you can't really think much because of the wind and the course. Just try to have fun with it and have opportunity for me to make birdie. That's all I can do.
