

Portland Classic

Saturday, August 3, 2024

Portland, Oregon, USA

Columbia Edgewater Country Club

Moriya Jutanugarn

Quick Quotes

Q. Okay, I'm here Mo Jutanugarn after her third round at the perfection. Mo, you're bogey-free through three rounds. Is that really hard or was that sort of the easy to do on a course like this?

MORIYA JUTANUGARN: Well, I would say like today I had a lot more like chance for birdie and I hit it better than yesterday. So like today wasn't like that hard, but yesterday I had I would say like a lot of actually a par save. I don't even think I'm going to make par.

But like it's kind of fun when things like come your ways sometime.

Q. Lots of birdies on the card today. What maybe went differently for you today where you were able to score more birdies than the past couple days?

MORIYA JUTANUGARN: Well, just what I say, like it's, you know, like I've been hitting it pretty solid starting this week and course a little bit better today, and just I guess just make some more putts.

When you hit it good you get chance for birdie which is kind of make golf more simple.

Q. Is there anything about this course in particular that you like? Do you like playing here or anything about this course?

MORIYA JUTANUGARN: I mean, all my years on LPGA always coming to this golf course. Just what I say, all my years on the LPGA you know, like I've been coming back to this golf course all the time. You know, we love Portland. We really like this golf course.

And also like this golf course being always in good shape. You know, it's fun to come and play like you feel like you're coming back all the time.

Q. Tomorrow you feel like making a lot of birdies is going to be important again on Sunday?

MORIYA JUTANUGARN: You know, like I'm pretty happy with like how I play, and it's even more fun when you play with a good commitment, like a lot of good commitment out there.

And I think that's what I've been working on and I just kind of want to just like keep doing what I want to do out there more than like focusing on like result.

And also I think when you focus on what you can control, like things you can control, good things will happen.
