

# Pelican Women's Championship

Sunday, November 14, 2021

Belleair, Florida, USA

Pelican Golf Club

## Lauren Coughlin

### Quick Quotes

#### Q. Oh, what a relief it is.

LAUREN COUGHLIN: Yeah. It felt like I was winning the golf tournament coming -- when I hit that shot. It was just very speedy so, just line it up. Just get it in the hole. (Laughter.)

#### Q. That's awesome. What does it mean to you to be able to perform like this, not only now, but for years to come in the future?

LAUREN COUGHLIN: It's just a big relief knowing I'm going to play a full schedule next year and not have to worry about playing any Symetra events or starting the year on Mondays. So it's just a huge relief.

#### Q. You were out here full time, right, before?

LAUREN COUGHLIN: I started conditional this year. I only got a start in Hawaii and Kingsmill, and that got me pretty much -- I mostly played out here after that.

#### Q. But a couple years ago?

LAUREN COUGHLIN: I was full; 2018 I was full.

#### Q. So you're back?

LAUREN COUGHLIN: Yes, exactly. I'm back. I mean, I'm just is completely different player than I was back then. I just -- yeah, I'm just really excited to not have to go to Q-School, so...

#### Q. Was there any point, maybe when a bogey crept in today or anything where you -- what was the pressure like in those moments where maybe something wasn't going your way today?

LAUREN COUGHLIN: Yeah, I mean, there was definitely a couple points. I mean, I started out birdieing 1 and 3, so that kind of settled me in nicely.

I still hit some really good shots throughout the day. But just couldn't really get anything to drop.

I would really say I only had like one bad putt on 11. I three-putted. Other than that I putted extremely well.

I kind of had to be a little -- I couldn't really be...

#### Q. Careful?

LAUREN COUGHLIN: Yeah, I had to be careful not to ram anything, which I have a tendency to do when I'm trying to make stuff. I was just really trying to focus on speed and give myself pars as much I could.

#### Q. And it worked.

LAUREN COUGHLIN: Yeah.
