

# Meijer LPGA Classic

Sunday, June 19, 2022

Grand Rapids, Michigan, USA

Blythefield Country Club

## Atthaya Thitikul

### Quick Quotes

**Q. Here with Atthaya Thitikul. Solid end to a solid week. Went low on the weekend and put yourself in contention. How do you feel about that performance?**

ATTHAYA THITIKUL: Yeah, feel really good about like how I can perform this week. I mean, like on the final round wasn't the best for me because I miss couple of putts, but was obviously good coming back under par and then like keep me with a lot of confidence.

**Q. You told me a couple days ago that expectations have been hard to manage. You've had a lot of success this week. Put yourself in contention. How do you manage your expectations of yourself this week?**

ATTHAYA THITIKUL: I think just like I said every single time, just I just want to be like myself on the golf course and then just to keep smiling, what I have been doing, like smiling before, and then just enjoy and have fun out there and not thinking about the outcome.

**Q. Obviously you're not a typical rookie. You've had a lot of success prior to this; having a lot of success really early out here. I mean, what does it mean to you to have been in contention so many times in a very short amount of starts?**

ATTHAYA THITIKUL: I think it's mean that what you're doing is right, then your hard work, it's pay off.

So it's good, but like we have some things to do more. We have to improve more as well.

**Q. Final question: Just KPMG next week. Played well here, in contention here with a lot of the top -- you're one of the top 10 in the world -- but a lot of other top 10 players in the world. How much confidence do you have heading into the year's third major?**

ATTHAYA THITIKUL: Yeah, I mean, like this week it's really great. I got more confident.

But who gonna knows, because like next week it's a new weeks and new course, new me next week as well. I mean, like it's a lot that affects for golf.

So who gonna know how I going to play next week. Doesn't matter as well, because just like I think just go there, do what you work on, and then just have fun out there.

Because like it's not the last week of your life though.
