Q. Just assess the match out there that you and Angela fought so hard.

AUSTON KIM: Yeah, we did fight. It just sucks that I put Andrea in a couple of bad spots. And I know she said the same thing. But we both played pretty solid and it's tough hitting good shots and then not getting rewarded for it or kind of halving holes over and over again. But we had opportunities and I know that we're both playing good golf and our team's in a good spot, so not worried.

Q. How do you kind of count this as a wash and get ready to go for four-balls in the afternoon?

AUSTON KIM: I think any time you play golf that's the mentality that you got to have. You got to be a goldfish, right, and I can't let my team down by focusing on individual problems. Like, we're all a team, we're all trying to support one another, and there's a bigger picture here in play. It's just best to have a short memory and move on, because getting points later on is what matters the most.

Q. What's the energy this afternoon?

AUSTON KIM: Energy's high. We're in a good spot.
