Q. Obviously your first year on Solheim Cup. You had a big win today. I know emotions are probably high right now, but can you just reflect on the week?

LINDY DUNCAN: Yeah, it was a really fun week with the girls. I was really happy -- that match we had yesterday, Jen and I, that was one of the most exciting things I've ever been a part of. Then today I played really well. I played really nicely. And it was really cool to see, you know, under a lot of pressure in front of a lot of people kind of cheering for the other team that I was able to play some of my best stuff. So I will take a lot of confidence.

Q. What does it mean to compete in something like this at this point in your career?

LINDY DUNCAN: It's really cool. I'm one of the oldest people here. And I hope that people out there, you know, like, don't give up on their dreams and keep fighting for them. That's kind of what my story's about and that's -- every day I get to play out here with these girls I feel so grateful to be able to do that.

Q. You've had your mom out here all week. What does it mean to have her here with you?

LINDY DUNCAN: It's been amazing. She gave me the biggest mama bear hug after this match was over, and yesterday as well. And she's just been such an amazing support my whole life. She doesn't care how I play. She just wants to support me as a person, my sister and I, and she's the best mom I could ask for.
